

`/home/niklas/workspace/fbgui/src/downloadmanager.h`

```
graph BT; A["/home/niklas/workspace/fbgui/src/downloadmanager.h"]; B["/home/niklas/workspace/fbgui/src/downloadmanager.cpp"]; C["/home/niklas/workspace/fbgui/src/fbgui.cpp"]; B --> A; C --> A;
```

The diagram illustrates a file dependency structure. At the top is a grey box containing the header file path: `/home/niklas/workspace/fbgui/src/downloadmanager.h`. Below it are two white boxes. The left box contains the source file path: `/home/niklas/workspace/fbgui/src/downloadmanager.cpp`. The right box contains the source file path: `/home/niklas/workspace/fbgui/src/fbgui.cpp`. Two blue arrows point from the bottom of each of these two boxes up to the bottom of the header file box, indicating that both source files include the header file.
