The diagram illustrates a dependency structure. At the top, a grey rectangular box contains the file path `/home/niklas/workspace/fbgui/src/fbgui.h`. Four blue arrows originate from the bottom edge of this box and point downwards to four separate white rectangular boxes. From left to right, these boxes are labeled `QWSServer`, `QtGui`, `QtWebKit`, and `QxtCore`. This indicates that the `fbgui.h` header file includes or depends on these four modules.
